WHY REDAGILE
## Course Overview

This course is focused on creating leaders who can inspire real Agile change across an organisation. Pivotal skills, deep empathy and key knowledge will be acquired through case study analysis, discussions, interactive exercises and learning about the significant impact of anti-patterns. This course is for leaders looking for the best solutions and the optimal outcomes.

SYLLABUS
## Learning Outcomes

→ Discuss real world cases to understand the Agile transformation process, both the successes and the failures.

→ Learn effective approaches to real organisational change and successful Agile adoption.

→ Understand how to create an organisational culture that enables Agility.

→ The evolution of organisational design structure during the transition from a hierarchical structure to an adaptive network.

→ Uncover the link between organisational culture and Agile Leadership mindset and behaviours.

→ The impact of too much, or too little, governance, processes and anti-patterns on successfully shifting to business Agility.

→ Organisation change management models to offer in support to leaders in achieving greater Agility.

COURSE FEATURES
